*Beyond Paper*

# GLATFELTER NONWOVENS: REAC

Turn your most innovative product ideas into specialized, high-quality nonwoven solutions by partnering with Glatfelter—the world's only nonwovens manufacturer offering both airlaid and wetlaid capabilities. Our expertise in new product development, unsurpassed customer service and ever-expanding global reach allows us to deliver world-class solutions for a spectrum of commercial and industrial markets. From the front door to the factory floor, a world of exciting new products awaits when you partner with Glatfelter.

## Bringing your new products to market with advanced capabilities and cutting edge processes

Offering flexible production and impressive capacity, Glatfelter's nonwoven capabilities have earned a solid reputation for innovation and customization. We offer state-of-the-art facilities in North America and Europe backed by global logistical support, world-class R&D and a powerful new product development engine to drive your success.

**New product development is the engine that powers Glatfelter's growth. More than 50% of our sales come from products developed in the last 5 years.**

**Glatfelter offers a unique combination of proven capabilities and processes to meet a full range of customer requirements:**

- Thermal-bonded airlaid
- Latex-bonded airlaid
- Multi-bonded airlaid
- Hydrogen-bonded airlaid
- Wetlaid fibers
- Composite laminates
- Multilayer structure
- Metallized film & papers
- Hydrogel polymer (SAP, SAF) and Bico Dosing
- Microencapsulation/timed release materials
- PE—powder and odor control
- Standard reel slitting
- Single-lane festooning process
- Laminating

# H NEW HEIGHTS IN INNOVATION

## Specialty products for today's specialized market needs

Serving a broad range of markets, Glatfelter's nonwovens portfolio is highly customizable to meet your exacting requirements.

### Automotive

In the automotive industry, from the car door to the factory floor, wherever there are specialized needs, unusual challenges or just plain tough jobs to do, Glatfelter nonwovens are ready to perform.

- Floor mats
- Headliner
- Adhesive tapes

### Buildings

Found almost anywhere in today's buildings, Glatfelter nonwovens are at work behind the scenes, reinforcing carpets, protecting wiring and insulating against noise and moisture.

- Acoustical materials
- Wallcoverings and fire-retardant scrims
- PVC flooring and wood veneer

### Composite Laminates

Protect décor and aesthetics with attractive, abrasion-resistant overlay products.

- Decorative laminates
- Flooring
- Composite structures

### Electrical

Designers rely on our innovative nonwovens to make electrical devices and systems safer and more reliable in markets the world over.

- Aluminum electrical capacitors
- Battery pasting papers
- Cable wrapping

### Food and Beverage

Glatfelter nonwoven products are part of great recipes worldwide. How? Our products extend shelf life and provide absorbent properties that keep foods fresh, tasty and healthy.

- Food pads
- Fruit liners
- Packaging liners
- Beverage filtration papers

### Home Care

Our versatile nonwoven solutions deliver specialty-engineered softness and strength, outstanding absorption and durability, and properties that help keep interiors clean and germ-free.

- Kitchen towels and wipes
- Napkins and tablecloths
- Pre-moistened cleaning wipes

### Hygiene and Personal Care

We deliver flexibility and freedom for healthy lifestyles worldwide, through creative, highly-customizable nonwoven solutions that deliver unsurpassed comfort, thinness and absorbency for an array of products.

- Adult incontinence
- Diapers and baby wipes
- Feminine hygiene

### Medical

Every day, our nonwoven products help protect patients and the sterility of medical facilities — while meeting some of the most demanding specifications in the world for health, safety and comfort.

- Nursing and wound pads
- Surgical tapes, masks and hairnets
- Wash gloves and mattress covers

### Metallized Films & Papers

Eye-catching metallized products that lend style and appeal in a variety of applications.

- Product labels (Wet-Glue, Self-Adhesive)
- Packaging (Inner Liner)

*Glatfelter offers customers in the world's fastest-growing, most competitive specialty markets access to world-class airlaid products, capabilities, logistics and R&D. That helps bring attractive and cost-effective design concepts to life, and gives customers added flexibility to create high-performance products that can give them an edge in competitive markets.*
