

GEPALUX® metallized papers for premium beers

Our metallized products are visually as effective as foil and printable as paper.

GEPALUX® metallized label paper is the first choice for the labeling of premium beers

- Our GEPALUX® metallized papers are visually as effective as metal foils but are paper through and through.
- The luxurious gloss, the excellent embossing properties and the excellent white printing capability set the scene for premium brands.
- The vapor-deposited aluminum adds hardly any weight but offers designers excellent designing opportunities, as well as all the processing advantages of paper.
- All over the world, GEPALUX® papers are giving big name brand manufacturers visible added value.

Possible uses and characteristics of the various types of GEPALUX®

GEPALUX® 2000 ^{plus}	Label paper for premium beers and soft drinks. Available in 68 gsm – 78 gsm.
GEPALUX® AV	
GEPALUX® FM	
GEPALUX® MC	
GEPALUX® MHG	High gloss label paper for spirits and lamination. Also suitable for food packaging of dry goods and suitable for UV-printing.

Glatfelter is not only a provider of metallized papers but also an innovative partner for all aspects of labeling.

Brilliant and functional

GEPALUX® papers from Glatfelter can be printed with all techniques, opaque or transparent, processed plano and at high speed and finally be washed off easily. Our customers enjoy the advantages of GEPALUX®, whether in disposable or returnable bottles, warm or cold.

GLATFELTER
Beyond Paper

*Beyond Paper™... is everything we do,
above and beyond making great paper – that makes us unique.*

GEPALUX® can be processed in all regular printing techniques. Whether rotogravure, flexography or offset printing; the result is always brilliant. You'll also be convinced by the handling: **GEPALUX®** can easily be processed from sheets or rolls.
